

Mount'n Mover Mounting Systems

*Gain a New Level of
Independence - with a
mount that MOVES!*

Mount'n Mover™
by BlueSky Designs

mountnmover.com

2024

Michael uses a Dual Arm to hold his tablet and easily operates his Dual Arm Mount'n Mover using one hand.

Unsurpassed innovation, flexibility, style, and independence!

Move beyond the limits of static mounts!

Move it!

Independently move it to:

- transfer
- pull up to tables
- for driving or watching TV

Multi-task!

Position, secure and access multiple devices (pg 7)

Do More!

Trays optimize access for functional independence. Eat, work, read, and more! (pg 12 + 13)

Swap it!

Swiftly and easily change devices: iPad, speech device, laptop, phone, camera and more! (pg 12,13,14)

Experience Powerful, New Independence!

Move your mount with the touch of a switch with a Mount'n Mover Pow!r Hybrid System (pg 8 + 9)

"Brylee LOVES her new mount! It's amazingly user friendly. The precise positioning capabilities are fantastic and the fact that her ideal position can be 'locked in', and easily returned to, is super helpful. Her speech device has given her a voice and the Mount'n Mover has made it easy for her to use it everywhere she goes! "

Michelle, Brylee's Mom

Get Started!

1. Choose your mount:

Mount'n Movers - Pages 4-5

- Independently move
- Custom memory locks
- Locking tilt

Easy Movers - Page 6

- Customizable resistance to hold position
- Quick Connect Receiver or Tilt Plate
- Movable joints and tilt
- Non-locking

Simple Mounts - Page 7

3 Options: Quick Connect, Small or Large Tray

- Change tilt (high or low resistance)
- Swivel, fold flat, store to the side
- Multi purpose support (arm, mouse, remote)

Pow!r Mounts - Pages 8-9

- Pow'r Joint, Pow'r Shoulder or Pow'r Tilt
- Switch accessible
- Programmable memory positions

2. Choose what you want to attach:

Tray, speech device, camera, phone - pages 12-14

3. Choose where you want to mount it:

Wheelchair, table, floor stand - pages 15-18

Tilt'n Turner

Single Arm

Dual Arm

Easy Mover Dual Arm

Easy Mover Single Arm

Dual and Single Arms are also available with a locking or non-locking Tilt Plate

Simple Mounts

all simple mounts tilt, swivel and fold down to the side.

Quick Connect

Small

(3.5" x 7.0" x .25")

Large

(9.0" x 11.5" x .375")

Mount'n Mover With Pow!r Shoulder

Mount'n Mover Pow!r Joint

Mount'n Mover With Pow!r Tilt

Mount'n Mover

Tilt'n Turner / Single Arm / Dual Arm

Memory Lock Positioning and Locking Tilt!

- Precise fine tuning for eye gaze
- 24 positions per joint
- Adjustable Tilt from 0° (flat) to 110°
- Link Cube with 3 configurations
- Release and move easily!

Full extension: 15 - 18 inches!

Memory Lock Positions

Adjustable memory lock settings allow customized, consistent, and repeatable positioning of devices. Each joint offers up to 24 possible lock positions

Tilt'n Turner

- 1 rotational joint
- 24 Lock tabs/possible lock positions
- Tilt adjustable/locking tilt
- Very compact
- Position in front of armrest

MO-TQ-H (high resistance hinge)

MO-TQ-L (low resistance hinge)

Tip: Add a second device to a Dual or Single Arm Mount'n Mover — create a Double Decker!

Single Arm

Full extension 7.5 to 10.5 inches from the Shoulder to the Wrist Joint

- 2 rotational joints
- 24 lock tabs per joint
- 576 possible lock positions
- Simple to move
- More compact than Dual Arm
- Locking tilt

M1-TQ-H

(high resistance hinge)

M1-TQ-L

(low resistance hinge)

Shown:
Optional Link Cube
Configuration

Tip:

We recommend the High Resistance Hinge for heavier devices (5 lbs. or greater)

Link Cube configurations:

The Quick Connect Receiver (QCR) (page 11) can be attached to the Quick Release Plate (QCR)

Quick Release Plate allows for quick and easy attachment and removal for a wide variety of devices

Increased forward tilt- ideal for eye gaze (0° to 110°)

Paddle unlocks the wrist joint so you can easily rotate a tray or device

Unlock and Move Easily
Hoop unlocks both the elbow and shoulder joints simultaneously to make moving between operating positions easy

Tilt angle adjustment: easy lateral movement unlocks the tilt

Dual Arm

- 3 rotational joints
- 24 Lock tabs per joint
- 13,824 possible lock positions
- Most versatile
- Requires little reach

Full extension 15 to 18 inches from the Shoulder to the Wrist Joint

Link Cube

M2-TQ-H
(high resistance hinge)
M2-TQ-L
(low resistance hinge)

Easy Mover Dual Arm / Single Arm / Tilt'n Turner

- Quick Connect Receiver is compatible with other mounts and devices
- Hinge on Easy Mover is available with either low or high resistance
- Joints can be adjusted from low to high resistance, low resistance requires less effort to move, high resistance requires more strength to move
- Tilt does not lock
- Weight limit 10 pounds

Simple Mounts

Quick Connect / Small Tray / Large Tray

What makes them so great?

- Simple yet sturdy - holds up to 15 pounds
- Ideal for phones, remotes, iPads, tablets, speech devices, mouse, switches, eating, writing, and reading!
- Create a double-decker with a Dual or Single Arm system
- Securely attaches to wheelchairs or table
- with Mount'n Mover hardware (sold separately)

Quick Connect

New Quick Connect Receiver is compatible with other mounts and devices
(see web for order number)

Simple Mount Small

3.5" x 7" x .25"

Tilts / Swivels
(see web for order number)

Simple Mount Large

9" x 11.5" x .375"

Tilts / Swivels
(see web for order number)

Trays include Lip Supports:

Combine "lips" to create channels

- Adhesive - backed
 - Place them anywhere
 - Small tray includes 1
 - Large tray includes 2
- Additional sets of 6 (sold separately)**

Combine with a Dual or Single Arm to make a double decker!
Or use two mounts!
(see photo above)

The Simple Mounts include a post attached to a variable angle hinge. The hinge is available in either a high or low resistance. Choose your post length: 8", 12", 18", 24", or 36"

Clear tray swivels 360°, lays horizontal, tilts 0 - 90° and folds down flat to the side!

Attaches to wheelchairs using Mount'n Mover Wheelchair Hardware (sold separately)

For tables, use a Table Clamp

Pow!r Mount Hybrid Systems

Introducing the first power Mount'n Mover for independent device positioning

Mount'n Mover with Pow!r Shoulder

Hybrid configuration: Mount'n Mover and Pow!r Joint

Pow!r Shoulder Benefits:

Move to the side:

- For transfers
- To pull up to a table or sink
- To see to drive
- To increase independence
- Use from wheelchair, table, or bed
- For safety and well-being

Features:

- Flexible positioning of a Mount'n Mover
- Single or Dual switch directional control
- Customizable target positions
- Rechargeable battery included
- Attach: Trays, speech devices, camera, laptop, or suction tube
- Built-in keypad for attendant
- Supports and moves up to 15 pounds

PM-HBD-S-H (high resistance hinge)
PM-HBD-S-L (low resistance hinge)

Mount'n Mover with Pow!r Tilt

Hybrid configuration: Mount'n Mover and Pow!r Joint

Pow!r Tilt Benefits:

Move it to:

- Use your device
- See where you are driving
- Avoid glare
- Visual access in a reclined position

Pow!r Joint!

Use a Pow!r Joint to add rotary motion where you need it!

Shane's uses a Pow!r Joint to move his Joystick. Read his story on our website

PM-HBD-T

Single Switch A:
Toggle directions

- Activate switch (or use arrow keys)
- Joint moves while held
- Let up, it stops
- Next activation, other direction

Single Switch B:
Two Target positions

- Activate switch and release
- Moves to a target position
- Activate and release
- Joint goes to second target position
- Click switch white moving it stops

Two Switches:
Direction-specific

- Activate and hold Switch
- Moves one direction
- Stops when released
- Activate Switch B to go other way

Communicate all the time, everywhere

Swap devices quickly Attach any device with ease

Device plates have been developed to attach communication devices to the Mount'n Mover's Mounts. Common devices are listed in the chart below. More options, including custom plates, are available.

TR-iTAB-UR with Universal Rotator

add a Quick Release Plate if needed

12"x12" Tray

- Add Velcro or Lip Supports to secure a phone or tablet
- Create an easel with a clip on the edge
- Attach a plate to it for eating, or use to hold remotes

TR-12x12-Q with Quick Release Plate

TR-12x12 no Quick Release Plate

Additional options

Portrait

Landscape

Phone

- Attachment plate for mobile phone
- Includes an Otterbox Defender swivel case
- Can be rotated from portrait to landscape
- Shown with Quick Release Plate (not included)
- * Must supply phone make and model at the time of order

DP-PHONE-OB

Camera Plate

- Attaches to Quick Release Plate (p.7) or add a Quick Connect Plate to attach to an Easy Mover
- Attaches directly to most cameras - with 1/4" and 3/8" screws (supplied)
- Attaches to tripod heads (not included)

After becoming frustrated trying to use a tripod and monopod, Suz was relieved to find out about the Mount'n Mover. She likes the flexibility it offers and that it allows the eye piece of the camera to be close to her eye. Attached to her power chair and tripod head, the camera goes with her everywhere and is always available to capture the perfect shot.

DP-CAM3

Universal Access Station Kit

NEW!

Questions?

Give us a call and we can help select the best mounting option for your wheelchair. From round tubing to slide tracks, level or angled, we have the hardware to connect your Mount'n Mover to your wheelchair.

For Dual Arms, Single Arms, Tilt'nTurner, and Easy Movers, the Link Cube offers three attachment options:

Post
5 length options:

P8 8"
P12 12"
P18 18"
P24 24"
P36 36"

* Or cut to a custom length

Call us at 1-888-724-7002
(toll free) or 1-612-724-7002.

For help choosing hardware go to:

mountnmover.com/support/wheelchair-mounting-overview

Select your wheelchair brand and model from drop down menu to view recommendations and mounting instructions

Solid Wheelchair Bracket

- Most rigid way to attach
- Simple and compact
- Has two mounting orientations

WB2

Angle Adjustment Plate

- Allows for rigid mounting for multiple angles, in increments of 7.5°
- Compatible with WB2 and all bracket mounting hardware.

Pair this with WB2 to more solidly adjust your post angle to vertical

WC-AAP

Adapter Plate

- Plate size: 3" x 1.75" x .25"

WC-AP

Round Clamp

- Clamps to round tubing when bolting is not an option
- Select from 1" or 7/8" size

WC-R1 1"

WC-R7/8 7/8"

Round Bridge Clamp

- Must be used in a pair with a AP2 or AP4
- Choose 1", 7/8" or mixed pairs
- Eliminates tube-slip if clamped at right-angles

WC-R1B-set 1"

WC-R7/8B-set 7/8"

Coved Spacers

WC-Coved-7/8
WC-Coved-1

Collar Clamps

- Additional round tubing option (see website for sizes)

WC-Collar

T-Nut

- Compatible with TDX and Quantum style slide tracks

WC-TN

Adapter Plate 2

- Plate size: 4.75" x 2.25" x .25"
- Longer extension than WC-AP4

WC-AP2

Adapter Plate 4

- Plate size: 3.75" x 2.25" x .25"
- More compact than WC-AP2
- Allows for 5/16" or 8mm bolts

WC-AP4

Adapter Plate 5

- Plate size: 5.5" x 2.0" x .25"
- longest/narrowest
- Allows for 5/16" or 8mm bolts

WC-AP5

L-Angled Extension Plate

- Can be used singly to offset mounting at 90°, or used in pairs to extend mounting from 2.25" to 4.5"
- Fully compatible with all wheelchair mounting hardware

WC-LAE

Access anything, anywhere

Move your Mount'n Mover from your wheelchair to the Floor Stand in seconds

Floor Stands

The floor stand can be configured with the post at the vertical upright, or with a horizontal extension. Do this by rotating the clamp at the top of the upright.

Alma uses a Mount'n Mover Single Arm to hold her communication device. Recently we helped to install it on her new wheelchair.

"First of all, I just want to sincerely thank you and the team for taking the time to put together such a specialized and unique mount for my chair! Having my device mounted on my chair has been such a quality-of-life improvement, and it has greatly enhanced my independence, both at work and at home. It has also relieved much of the back pain that I had been experiencing as a result of holding my device on my lap. You guys have my gratitude and my respect for your handiwork!"
